

Please do not tamper or weaken Wisconsin's No Call List. We have been on the list since its inception. What it has meant to our family is generally an uninterrupted evening meal time. I am no longer interrupted in the middle of a project by a telemarketer I have no desire to speak with. We no longer have to resort to the answering machine to screen calls.

Please do not lower our quality of life by weakening Wisconsin's No Call list and allowing telemarketers to call us. Perhaps other states would like to adopt Wisconsin's strict rules. Consumers are sure to be pleased!
